

County of Chenango Industrial Development Agency

Application for Incentives/Benefits Preamble

The following is a basic outline of the process for applying to the Chenango County Industrial Development Agency (CCIDA) for economic incentives. The primary mission of CCIDA is to offer economic incentives to County of Chenango businesses in order to create and retain quality employment opportunities and to strengthen the local tax base. The IDA defines "industrial" to include all traditional manufacturing businesses, computer software, agribusiness, printing, publishing, and research and development. The IDA prefers to assist those businesses that have a market for products or services extending beyond County of Chenango. The IDA avoids offering incentives to businesses that will compete with or displace existing Chenango County businesses.

Each applicant will be asked to complete the following application that will be presented to the IDA Board.

- Please work with IDA contract staff in developing its application.
- The IDA Board, at its next scheduled meeting, will consider whether to move forward to the Public Hearing phase.
- Public Hearings are held in the taxing jurisdiction where the project is located. At least ten business days' prior notice of the date, time, location and topic of the Public Hearing must be given. If the CCIDA needs to declare Lead Agency for SEQR purposes, the process can take longer.
- After the Public Hearing is held, the IDA Board, at its next scheduled meeting, will consider if economic incentives will be granted.

If a resolution is passed that grants economic incentives, the applicant will become an appointed agent of the IDA for the purposes of the approved project, and thus be eligible for New York State sales and use tax exemption on purchases related to the project for one year (renewals may be granted upon request). The abatement applies to both the State and local portion of the sales tax. The affected taxing jurisdictions will be notified of the decision of the IDA.

At the appropriate time (project closing), the IDA will take title to or a leasehold interest in the project (the project closing) and thus will grant Property and Mortgage Recording tax incentives under a Payment-in-Lieu of Taxes (PILOT) agreement. The standard PILOT agreement is for ten (10) years and reduces the property taxes beginning at 95% in year one and ending at 5% in year ten. At the end of the PILOT agreement, title is returned to the project owners or the lease expires; from that point forward, full taxes are paid on property and any buildings. The IDA and IDA counsel will need to be notified as soon as bank financing is obtained and at least four weeks prior to the desired closing date of all bank financing and property closings. There will also be annual reporting requirements on finances and employment to comply with New York State law.

The applicant is responsible for paying the IDA closing cost fee at the time of closing. The fee will be equal to 1% of the project costs. Project cost is defined as the greater of the total value of the improvements involved in the project (including hard and soft costs) or the total value of the property to be owned by the IDA. The applicant may choose to pay all IDA administrative fees annually or at the time of closing. The applicant is also responsible for paying all legal costs such as IDA Counsel and Bond Counsel fees.

The following application will ask for information about the company and proposed project, including but not limited to: business history, estimated job creation, possible tenant information, employment information, projected costs, and the value of incentives sought.

Please note that the information supplied on the application will help the IDA Board to determine whether it will grant economic incentives. Your answers are not considered "pass or fail," but are informative to the IDA Board in making its decision. If an applicant agrees to certain conditions based on the information supplied, these conditions will become part of the legal and binding documents tied to the economic incentives. Economic incentives will be terminated if these agreed-upon conditions are not met.
